Poznámky

Bezpečnostní informace

Always use the appropriate VDE screwdriver variant for your screwdriver head to prevent injuries due to slipping or damage to the VDE screwdriver or screwdriver head. Always ensure that the VDE screwdriver is dry and free from oil and grease to prevent slipping or injury.

If the shank is damaged, always replace the VDE screwdriver to prevent injury from slipping.

To prevent the risk of electric shock, do not use the VDE screwdriver if the handle or insulation is damaged.

Do not use the VDE screwdriver to open the contact spring for products with operating slots.

Do not use the VDE screwdriver as a prying tool or chisel.

Wear approved eye protection and wear the personal protective equipment required for your application.

Environmental and storage information: Ensure that the VDE screwdrivers are not exposed to strong heat sources (e.g., heating pipes or steam lines) or UV radiation sources.
