

BC 32 Basic Clip 35032

CE 6/2022

Areas of application:

The Basic Clip BC can be fastened on each surface – by a screw on wood and metal or simply by the push of a thumb with the Dowel Fastening Nail DSN, resp. with screw and rawl plug on concrete/aerated concrete or on brick walls.

Installation Guide:

With DSN:

- Drill a 6 mm Ø hole,
- insert DSN with BC in the hole,
- push the pipe into the clamp.

With screw:

- fasten the BC with a screw, suitable for the surface,
- push the pipe into the clamp.

Product details:

Colour	light grey
Content pack/box	100 / 1.800
Insulation pipe Ø	32

Technical data:

Material	PP, UV stabilised Temperature range: -10 °C up to +85 °C silicon-free Material tested according OVR R14 (LSFOH)
----------	---

Weight per piece 4,30 g

GTIN (EAN)

Without the need for further screws, several Basic Clips BC of different sizes can be connected by simply inserting or latching. Mounting time and costs are saved.
