

GTH Basket Tray Holder 9001

CE
6/2022

Areas of application:

Easy and cost effective solution for mounting conduits and junction boxes on cable trays.

Installation Guide:

- Simply hang it on the upper wire
- Bend the two flaps round the lower wire
- For conduit installation:
by using the EC with EDV in the long hole
or the EC with ESV in the round hole
- For mounting a junction box:
by using the SDC

Product details:

Content pack/box 50 / 1.600

Product benefits/properties:

Now you can mount a conduit within seconds buy using the EDV in the long hole or the ESV in the round hole, or by using the SDC, mount a junction box as fast and simple. In order facilitate the bending round the wire, the flaps have 2 creases at the lower end. The mounting over the vertical wire is also no problem thanks to the opening on the upper bend. As usually without the need for any tool!
