

# TA 100 Support anchor 33120

CE  
6/2022

## Areas of application:

For the chased fixing of sheathed cables, flexible tubing and conduits, on and under plasterboard.

## Installation Guide:

- Slide the Support anchor panel TAP on to the Support anchor TA ,
- Mount TAP with screws,
- Click the TB onto the TA
- Put flexible pipes under the TB
- Push the TB tight with your thumb
- Cut the end points of the TB to the desired size

## Product details:

|                    |             |
|--------------------|-------------|
| Colour             | light grey  |
| Content pack/box   | 100 / 3.600 |
| Shaft length in mm | 100         |

## Mounting and usage instructions:

The TB is fixed to the TA support anchor. Several TBs can be fixed to one TA. The fixing of the TBs can be done in several stages.

## Product benefits/properties:

The TB provides a secure hold even with different conduits/cables dimensions. Fast cable placement with no plastering.
